

DRIVOL

DIESEL SYSTEM CLEANER

Product Description:

Drivol Diesel System Cleaner is a potent additive blended specially for diesel engines, swiftly and efficiently clearing stubborn deposits formed in the fuel system. Ensures optimal corrosion resistance and enhances ignition performance.

Key Features:

- Eliminates diesel knocking.
- Improves ignition capabilities.
- Cleanses the fuel system thoroughly.
- Boosts operational reliability & engine performance.
- Ensures optimal combustion & reduces visible exhaust smoke.
- Provides effective wear and corrosion protection.
- Enhances fuel efficiency and lowers pollutant emissions.

Area of Applications:

- Suitable for all diesel vehicles, including those equipped with common rail and pump-jet injection systems.

Applications:

- Add directly into the fuel tank. 300ml Contents are suitable for up to 50 liters of fuel.
- Recommended for preventive use during each inspection, after fuel system repairs, to address issues, or following Jet-Clean cleaning sessions.

Handling:

- Combustible - Do not heat or keep near open flame.
- Avoid Contact with eyes or skin. Do not swallow. Keep out of reach of children.
- Store in tightly closed original container in a cool, dry and well-ventilated place.
- Product should never be stored above 50°C, exposed to hot sun or freezing conditions.

Technical Data:

S. No.	Characteristics	Test Results
1	Appearance	Light Brown, Clear
2	Base	Additive, Carrier Fluid
3	Odor	Characteristic
4	Form	Liquid
5	Flash Point	64 °C
6	Density at 15 °C	0,869 g/cm ³
7	Viscosity at 40 °C	< 7,0 mm ² /s

Manufacturing:

Manufactured in ISO 9001: 2015 and ISO 14001:2015 certified plant.

Disposal:

Environment protection to be ascertained by proper disposal of empty container as per local country guidelines.
