

Drivol Maxpro EP 68 Industrial Gear Oils ISO VG 68

Product Description:

Drivol Maxpro ISO VG 68 are premium quality extreme pressure industrial gear oils developed with high quality mineral base oil and performance proven additives to provide excellent load carrying capacity, water demulsibility, oxidation stability, and corrosion protection.

Key Features:

- Prolonged oil drain intervals, effectively reducing maintenance expenses.
- Exceptional load-bearing capacity with advanced extreme pressure additives
- Maintains lubricant stability, ensuring prolonged engine life even at high oil temperatures
- Protection against corrosion and rusting, safeguarding engine components for extended durability.
- Compatible with common seal materials, promoting seal longevity and preventing fluid leakage.

Applications:

- Designed for use in industrial gear boxes including in crushers, hoists, conveyors, winches, machine tools and lathes.
- Recommended for chain drives, sprockets, plain & anti-friction bearings and slide guides.
- General industrial plant lubrication where the performance properties of an AGMA extreme pressure lubricant are essential.

Specification / Recommendations:

International Standards & Meet the Requirements

DIN 51517: Part 3, ISO 12925-1 Type CKD

Technical Data:

S. No.	Characteristics	Test Method	Test Results
1	Appearance	Visual	Bright & Clear
2	Density @ 15°C (g/ml)	ASTM D1298	0.885
3	Kinematic Viscosity @ 40°C (cSt)	ASTM D445	68.5
4	Kinematic Viscosity @ 100°C (cSt)	ASTM D445	8.90
5	Viscosity Index	ASTM D2270	103
6	Flash Point COC (°C)	ASTM D92	230
7	Pour Point (°C)	ASTM D97	-21

Manufacturing:

Manufactured in ISO 9001: 2015 and ISO 14001:2015 certified plant.

Disposal:

Environment protection to be ascertained by proper disposal of Used oil and empty container as per local country guidelines.
